

INDUSTRIAL SEWING THREADS

Technical data of:

Article:	Trécore 80
Producer:	Forbitex Holland
Composition:	100% polyester/polyester (corespun)
Thread thickness:	200 Dtex (x 2)
Strength CN:	appr. 2200
Stretch %:	appr. 17,2
Shrinkage %:	below 0,25
Wash and perspiration steadfast.	
Special finish layer for optimal slide qualities and heat resistance.	
This article is Öko-tex certified.
